SERVICE TRAINING CERTIFICATE

Svetoslav Stoimenov

has participated in

Grundfos E motor training

During the period:

30 - 31 Mart 2017 Year

The purpose of the course:

The student has learned about fundamental settings and repair of the Grundfos E-motors that Grundfos have in the portfolio. As an important tool in relation to Grundfos E-product the use of Grundfos Go and Grundfos PC-tool E-product are also been introduced. With this certificate the student will be able to do repair and commissioning of Grundfos MGE motors and Grundfos CUE inverter.
